The Bstar Business Capitalisation Rate Calculator (BCRC) provides a fast, accurate, cost effective business valuation that outlines your business profit multiple and value.

The Business Capitalisation Rate Calculator is an online application and has received patent approval within Australia. Australian Patent Number: 2007203047.

Use the online BCRC calculator to:

- Ensure buyers are not paying too much
- Ensure sellers get what they expect and need
- Valuations for relationship breakdowns
- Valuations for ownership changes or disputes
- Succession and estate planning
- Valuations for insurance
- Valuations for finance

The Calculator uses 2 underlying assumptions:

- Capitalisation of profit methodology applies
- The business must generate sufficient profits after tax to return investment funds to an owner/investor over a defined period of time

Key components of the online BCRC calculator include:

- Business Profile
- Industry Benchmarks
- Profit and Notional EBIT (last 3 years and forecast year)
- WANEBIT
- Business Capitalisation Rate Parameters and Assumptions
- Free Cash Flow Factor
- Cost of Funds
- Indicative Tax Rate
- Investment Payback Term

Use this online calculator to complete your Business Capitalisation Rate Calculator and receive a personalised Statement outlining business value and profit multiple.
